### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election with traverse of Species D (Figs. 18-19) in the reply filed on 01/13/2005 is acknowledged. The traversal is on the ground(s) that all of the species can be searched in the same area. This is not found persuasive because each of the species are patentably distinct and require the same amount of search for each of the species.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 3-7 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 01/13/2005.

### ***Claim Objections***

3. Claims 1-2 are objected to because of the following informalities:

In claim 1, line 1, the phrase "especially a two-block railroad tie" should be deleted to improve the clarity of the claim language.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Garcia Calderon et al (EP 0 767 274 A1).

Garcia Calderon disclose a concrete railroad tie with an elastic rail support for ballast and solid tracks, with guide plates (3) with twisting-prevention devices (9) disposed in the supporting region between the base of the rail and the lateral, raised shoulders of the railroad tie, wherein the support area (7) is constructed essentially flat without continuous, deep depressions.

The support area is provided preferably in the region of its outer edges with depressions (10), which prevent twisting and are engaged by the twisting-preventing lugs (9) of the guide plates as shown in figs. 1-3 in accordance with claim 2.

#### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Mohr and Sonnevile et al are cited to show a related two block concrete block with a plate including twisting prevention device.

#### ***Conclusion***
